## CRIMINAL DOCKET DISPOSED OF

The criminal business of the county court was finished shortly afternoon today. A few cases were continued for the term for good reasons, and a few others dismissed, but the term has been a series of victories for County Attorney Wimbish and his deputy, J. W. Dean, who so ably represented the state.

This morning Joe Ledbetter was convicted in a liquor case and given a sentence of \$50 and thirty days.

J. H. Beartee was tried for practicing medicine without a license. He was found guilty and assessed \$100. Notice of appeal was given.

The following pleas of guilty were entered: Ed Clark, liquor, \$50 and thirty days.

Luther Sailors, disturbing the peace, \$5.00.

Monroe Chapman, liquor, \$50 and thirty days.

## BROTHERS MEET FIRST TIME IN 35 YEARS

Yesterday afternoon Capt. W. H. Fisher was very pleasantly surprised by the arrival of his brother, P. B. Fisher, whom he had not seen in thirty-five years. Mr. Fisher lives at Florence, Colorado, about thirty miles from Pueblo. He is a Democrat of the old school. When he moved to his present home there were only three Democrats in the precinct, but in eight years this vote of three has grown to a majority. Mr. Fisher will remain here about a week.

Mrs. M. C. Whitmore is back from her visit to her old home in southern Louisiana. She states that they were having regular spring weather when she was there, gardens green and flourishing with plenty of fresh vegetables at all times. Coming back she met the blizzard in Texas, and from that time forward has realized what real winter means.

## MANY CANDIDATES AT SPOKANE

Spokane, Wash., Jan. 3.—There will be more than 100 candidates, including Mayor Nelson S. Pratt, J. Oscar Peterson, city treasurer; George W. Armstrong, president of the board of public works; E. V. Lambert, president of the city council; Charles M. Fassett, president of the Spokane chamber of commerce; nine members of the city council, and bankers, merchants and tradesmen, for five commissionerships under the new charter, which carried by a majority of 2,225. The election will take place on March 7, 1911, the commission taking charge of the city's affairs as soon as the vote is certified. The salary is \$5,000 a year and three of the commissionerships are for terms of four years. The charter provides for first, second and third choice, which gives promise of complicating matters to make it one of the most spectacular campaigns in the history of the Northwest.

Charles W. Flemming, city clerk, announces that any person may become a candidate by obtaining the names of 25 bona fide electors. There is no charge for filing.

## COURT UPHOLDS GUARANTY LAW

Washington, Jan. 3.—The bank guaranty laws of Oklahoma, Nebraska and Kansas were declared constitutional today by the supreme court of the United States, and thus the fight over the policy of guaranteeing, through the state, of deposits in banks, was won by the advocates of such a policy.

## WITH THE CITY COUNCIL

The city council met last night with the mayor and six aldermen present.

After the minutes of the previous meeting were read and approved, the allowing of bills was next in order. Something like nine hundred or a thousand dollars in claims were allowed and warrants ordered issued accordingly, one item which had greatly decreased last month was that of the pumping bill, which had run near the five hundred dollar mark several months previously. This was \$180.70 for December, because of the decrease in the use of water caused by cutting off the machinery using large large amounts.

In a letter addressed to the council. Thos. P. Holt, who was employed by the city to prosecute the suit against the Pioneer Telephone Co., gave his opinion that the city's contentions are just and that the suit can be gained, but that it is more expedient for an individual to take it before the Corporation Commission than for the city to take it before the Supreme Court as our laws give the Commission jurisdiction in cases of this kind.

A letter from the Shelby Downard Asphalt Co., relative to the payment or turning over to their subcontractors money or bonds in consideration for work done on the street paving was read requesting the council to pay nothing till the claims against such parties wherein the city could be held responsible for the payment were satisfied. Then followed a letter from Levy, Levy and Levy, the subcontractors with a statement under oath relative to those outstanding claims.

Adam L. Beck on behalf of the Cement Co., stated to the council.

## I Sell Ostermoor Mattresses, backed by a reputation of 57 years SMITH'S 203-5 W MAIN ST.

That the company desires to start operating the plant not later than the twentieth of this month; and made this city a proposition in effect as follows: The Portland Cement Co. in order to supply the plant with water will purchase and lay a temporary pipe line to the company's well six and one half miles south of town provided the city when the pipe is needed for waterworks extension will take this pipe off the company's hands at the actual cost of the pipe. This was agreed to and the water committee was instructed to consult the city engineer and designate the kind of pipe to be used giving Mr. Beck an answer today.

The Cement plant will probably to start up again with water from the city reservoir, but in event that supply should be exhausted after the company's pipe line is laid, the company will furnish enough water at cost of pumping to the city which supplemented by the city well will adequately supply the demand.

An ordinance preventing the blockading of the sidewalks by the placing merchandise or any

obstruction on them was passed with the emergency.

After the canvassing the returns of the recent election on the bond issue, and receiving a proposition from City Engineer Ekman, relative to the engineering of the Byrd's Mill project, the council adjourned.

## Notice.

Of hearing on amended report of appraisers for street improvement District No. 2, City of Ada.

Notice is hereby given to the Missouri, Kansas & Texas railroad company, and others interested, that the Board of Appraisers, heretofore appointed to appraise the benefits and apportion the cost of street improvements in Street Improvement District No. 2, embracing that portion of Main street extending from the west line of the right way of the Saint Louis and San Francisco railway company to the east line of the right of way of the Missouri, Kansas and Texas railway company, and that portion of Townsend Avenue extending from the north line of Twelfth Street to the north line of the right of way of the Saint Louis and San Francisco railway company, and that portion of Broadway Avenue extending from the north line of Twelfth Street to the north line of the right of way of the Saint Louis and San Francisco railway company, has returned to this Board its amended report of such appraisal and apportionment and that a meeting of the Mayor and Council of the City of Ada will be held at the Council Chamber of the City of Ada at 7:30 o'clock p. m., on the 16th day of January, 1911, for the purpose of hearing objections and complaints, if any there may be, to the appraisements and apportionments as included in said amended report, and that the Mayor and Council will at said meeting hear any such complaints or objections and will consider the same and review and revise said amended report, as provided by law.

## Ordinance No. 236.

An Ordinance relating to and regulating the use of the sidewalks in the streets and avenues of the City of Ada, Oklahoma.

Be it ordained by the Mayor and Councilmen of the City of Ada, Oklahoma.

Sec. 1. That it shall be unlawful for any person to blockade or in any manner obstruct any portion of any sidewalk in any of the streets or avenues of the City of Ada, Oklahoma, with goods, wares, merchandise or other obstructions of any character or description whatsoever, or by causing people to congregate about him or them for any reason or purpose to such extent as will in any manner interfere with the public travel or said sidewalk.

Sec. 2. Any person violating any of the provisions of this Ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be fined in any sum not less than four dollars or more than one hundred dollars.

Sec. 3. For the preservation of the public peace, health and safety an emergency is hereby declared to exist by reason whereof this act shall take effect and be in full force from and after its passage, approval and publication as by law required.

## A WORD FROM MR. BOWMAN

Mr. F. E. Bowman, manager of the Ada Electric and Gas Co., requests the News to make the following explanation of the shutdowns of yesterday and today. For sometime the oil service has been unsatisfactory and it was the intention of the management to substitute coal as fuel. The order for the last car of oil was countermanded, but it had already been shipped and the change of fuel was postponed until it could be used up. When it arrived however, it was of such inferior grade that it could not be used at all, thus necessitating immediate shutting down until the furnaces could be changed. With the new fuel no further delay is anticipated.

approved by the Mayor, this the 3rd day of January, 1911.

[SEAL] L. J. LITTLE, Mayor.

Attest:  
W. B. JONES, City Clerk.

## WILL HENDRIX CASE AFFIRMED

Washington, Jan. 3.—The Supreme Court today affirmed the decision of the Federal Court for the Eastern District of Texas in the William Hendrix case.

William Hendrix was sentenced to life imprisonment for a killing in Oklahoma. The question was largely one of jurisdiction of the East Texas court over crimes committed in Oklahoma during the transition period of statehood. The opinion was delivered by Justice McKenna, Justice Harlan dissenting.

The young men of Durant have be-  
come filled with the booster spirit  
and have organized a club that they  
call the "Live Wire" club. The young  
fellows plan to give the older ones  
a race if they are to keep ahead in  
the boosting work. We commend  
their example to the bustling young  
fellows of Ada.

The normal has begun its second  
term. A number of new students have  
enrolled and many more would do so  
if the boarding facilities of Ada were  
only equal to those of the other  
towns where these schools are locat-  
ed. This is a serious problem. The  
character of instruction given here  
has given the Ada school a most en-  
viable reputation. All who are look-  
ing for the best advantages are at-  
tracted by the course here, but most  
of them have very limited means and  
must of necessity go to a place where  
they can get board at low figures. Of  
course this is a problem that should  
work itself out in time, but there  
is no time like the present while the  
school is still young. The prospective  
teachers of the state should get the  
habit of coming to Ada. Of course  
the trouble lies in the fact that  
few of us care to go into the board-  
ing house business, and what is ev-  
erybody's business is nobody's busi-  
ness. However, it is to be hoped  
that some relief will be found in the  
immediate future for a situation that  
is proving a serious handicap for  
the school.

## NEW YEAR WISHES

Soon the New Year will be ringing, we can say  
the old has been very successful for us and trust  
success has been yours, too. We are glad we were  
able to help you, and you in return helped us.  
WE THANK you for your patronage and hope to  
be able to supply your wants in the years to come.  
May happiness and prosperity abide with you al-  
ways. Thanking you, I remain,

DISTRIBUTORS

Now that the Republicans lost  
out so completely in the last  
election, a fierce fight is going  
on among the leaders for control  
of the pie dispensing privilege.  
They still have the federal coun-  
ter to fall back on, but what sort  
of a fix will they be in two years  
hence when the Democrats elect  
the president?

In some of the northern states,  
since the Democrats have proved  
that it is possible to win again,  
the members of the party who  
remained faithful through all  
these lean years, no longer feel  
so lonely.

**A WORD OF EXPLANATION.**  
The News comes out under dif-  
ficulties today. We are depend-  
ent on the electric light plant for  
power, and when it shut down  
this morning to change its fur-  
naces from oil to coal burners, it  
left us in the middle of a very  
bad fix. Instead of our type go-  
ing up on the linotype, the merr-  
y hum of the machine is stilled  
and every one in the office, from  
the editor down, who can handle  
a type stick, is busy trying to  
get up as much copy as possible  
before press time. Much to our  
mortification today's paper will  
be very short. We must crave  
the indulgence of our readers  
this time and put them off with  
the promise of a better paper  
when the power is in commission  
again.

**UNCLE SAM CLEANING UP.**  
Crusade by Government Agents  
Against Get-Rich-Quick sharps.

Within the last few weeks, Super-  
intendent William H. Hotchkiss, of  
the New York Insurance Department,  
has held up seventeen insurance com-  
panies and their promoting agents,  
driving them out of the state or com-  
pelling them to modify their plans.  
Postmaster-General Frank H. Hitch-  
cock, within a year, has caused the  
arrest of seventy-eight individuals,  
firms, "fiscal agents," and the like,  
for using the United States mails to  
defraud investors. With scarcely an  
exception, the men arrested carried  
out their swindling operations  
through methods of promotion so  
frequently denounced by this maga-  
zine including the usual paraphernal-  
ia of alluring prospectuses, stock can-  
vassers, and newspaper advertise-  
ments, entrapping the prospective  
victim by mendacious promises of  
huge profits.

While much still remains to be  
done in the way of protecting sim-  
ple-minded folk from the stock-selling  
sharks, more has been accomplished  
in this direction in recent months  
than in whole years past. Without  
question, the next step should be to  
bring the proprietors of newspapers  
and periodicals to an appreciation  
of their responsibility in the mat-  
ter. —Munsey's Magazine.

Mount Pleasant, Tenn.—"Cardui is all  
you claim for it, and more," writes Mrs.  
M. E. Rail, of this place.

"I was a great sufferer for 2 years and  
was very weak, but I learned about Car-  
dui, and decided to try it. Now I am in  
perfect health.

"My daughter, when changing into  
womanhood, got in very bad health. I  
gave her Cardui and now she enjoys  
good health.

"Cardui is worth its weight in gold. I  
recommend it for young and old."

Being composed exclusively of harm-  
less vegetable ingredients, with a mild  
and gentle medicinal action, Cardui is  
the best medicine for weak, sick girls  
and women.

It has no harsh, powerful, near-poi-  
sonous action, like some of the strong  
minerals and drugs, but helps nature to  
perform a cure in a natural easy way

When the late J. B. McCullagh  
was editor of the St. Louis Globe-  
Democrat he frequently made editor-  
ial predictions as to what wonderful  
advancement Missouri would show  
in the event it became a republican  
state. The facts are that Missouri  
lost heavily in population, outside of  
its cities, with the advent of the  
"Mysterious Stranger." But Missouri  
will "come back" in both democracy  
and population. —Oklahoman.

**COW IN MENAGERIE.**

**Children of New York Unfamiliar  
With "Bossy."**

New York, Jan. 2.—A Jersey cow  
is to be added to the Central park  
menagerie as an educational exhibit  
for the children of New York city.  
According to the park commissioner  
there are thousands of pupils in the  
public schools that never have seen  
a cow and have a crude conception  
as to the source of the city's milk  
supply.

There are sheep and goats in the  
park and the commissioner thinks  
the children should have a chance  
to become familiar with other do-  
mestic animals. The cow is to be in-  
stalled at once and the milking will  
be done in the paddock where the  
children may see it.

**REPUBLICANS OUSTED.**

**Legislature of Maine Will Be Demo-  
cratic—Unusual Incident.**

Augusta, Maine, Jan. 2.—The leg-  
islature while will convene this week  
is the first Maine legislature to be  
democratic in both branches since  
that of 1847, which chose James W.  
Bradbury for the United States sen-  
ate.

Governor-elect Frederick W. Plaist-  
ed will take the oath of office Thurs-  
day. He will be the first democratic  
governor since 1879.

At the coming session 22 of the 31  
senators-elect and 86 of the 151 rep-  
resentatives-elect will be democratic.

**NEEDFUL KNOWLEDGE.**

**Ada People Should Learn to Detect  
the Approach of Kidney Disease.**

The symptoms of kidney trouble  
are so unmistakable that they leave  
no ground for doubt. Sick kidneys ex-  
crete a thick, cloudy, offensive urine,  
full of sediment, irregular of passage  
or attended by a sensation of scald-  
ing. The back aches constantly, head-  
aches and dizzy spells may occur  
and the victim is often weighed down  
by a feeling of languor and fatigue.  
Neglect these warnings and there is  
danger of dropsy, Bright's disease  
or diabetes. Any one of these symp-  
toms is warning enough to begin  
treating the kidneys at once. Delay  
often proves fatal.

You can use no better remedy than  
Doan's Kidney Pills. Here's Ada  
proof:

M. J. Malone, Jr., 325 W. Sixteenth  
St., Ada, Okla., says: "The results I  
obtained from the use of Doan's Kid-  
ney Pills, procured from G. M. Ram-  
sey's Drug Store, far exceeded my  
expectations. For five years I was a  
great sufferer from a weak back and  
other symptoms of kidney trouble.  
The kidney secretions were highly  
colored and attended by a scalding  
sensation in passage. I had sharp,  
piercing pains through my loins and  
a constant ache in my hips that  
made me miserable. Since using  
Doan's Kidney Pills my kidneys have  
been performing their functions prop-  
erly."

## MUNICH SCHOOLS ARE BEST

Valuable Lessons Taught by Great In-  
dustrial System at Disposal of  
Chicago People.

Berlin.—Edwin G. Cooley, former  
superintendent of schools in Chicago,  
is making arrangements to place the  
valuable lessons taught by Munich's  
great system of industrial schools at  
the disposal of Chicago. He came to  
Germany as a special commissioner of  
the Chicago Commercial club and on  
his return will make a report to the  
board of education dealing especially  
with industrial education.

"Munich has made great progress  
in this field," said Mr. Cooley. "Dr.  
G. M. Kerschensteiner, who is at the  
head of its schools, is one of the fore-  
most educators in Germany. By the  
systematic co-operation of organized  
labor and employers he has succeeded  
in developing this phase of school  
work to a high degree of excellence.  
England and America are looking to  
him for leadership and one of his  
books will be translated into Eng-  
lish.

"I have obtained this translation  
for the use of the Commercial club.  
The subject of the work is 'Training  
for Citizenship,' and it takes the  
ground that a man or a woman unable  
to work effectively cannot be a useful  
member of society. The author con-  
demns mere training for skill in trade.  
His motto is 'Through vocation to  
man.' I believe the book will arouse  
widespread interest in America, and  
societies to promote industrial educa-  
tion probably will be given an oppor-  
tunity to co-operate with the Commer-  
cial club in its distribution. Professor  
Kerschensteiner has consented to lec-  
ture in Chicago, New York, St. Louis  
and other American cities."

Mr. Cooley is going to Brussels to  
attend the international congress of  
technical schools as representative of  
the United States government. On his  
return he will continue his investiga-  
tions in southern Germany, Switzer-  
land and Austria.

## HISTORIC SPOT IS DOOMED

**Old Mansions of Lincoln's Inn Fields  
Are to Be Pulled Down—Famous  
Men Lived There.**

London.—The march of that vandal,  
"Progress," which is gradually clear-  
ing London of its ancient, historic  
landmarks, has now reached Lincoln's  
Inn Fields, the largest and most beau-  
tiful square that is left. Two cen-  
turies ago, and down to the later  
Georgian period, Lincoln's Inn Fields  
was the abode of many distinguished  
men. Then came the days of degenera-  
tion, when society went westward,  
and in recent times the historic man-  
sions have been used as chambers for  
professional men, chiefly lawyers.

The whole of the west side is now  
doomed. The house occupied by the  
duchess of Portsmouth, one of the  
favorites of the "Merrie Monarch,"  
was demolished several years ago, so  
that a new Sardinia street might be  
formed. No. 62, where Thomas Camp-  
bell occupied chambers after the death  
of his wife, has been pulled down, and  
on the site an imposing block of com-  
mercial buildings is raising its head.

Alfred Tennyson when a young man  
occupied chambers at No. 55, and it  
was there that he used to meet his  
friend Hallam of the "In Memoriam."  
This house is to be pulled down very  
shortly, and so is No. 58, with which  
are connected many Dickens associa-  
tions. The mansion was occupied by  
John Forster, author of the "Life of  
Dickens," and in "Bleak House" it is  
referred to as Fulkington House. It  
was there that Charles Dickens in  
1844 read "The Chimes" in the pres-  
ence of a distinguished company of  
friends.

## LIFE IS CHEAP IN EUROPE

**Dr. Lobdell So Declares After Pass-  
ing Four Months Abroad—  
Frenchmen Inferior.**

Chicago.—Human life is the cheap-  
est thing in Europe, according to Dr.  
Effe Lobdell, who has just returned  
from his home in Chicago after passing  
four months in various parts of Eu-  
rope.

"There is a lack of system in the  
fighting of disease in the countries  
across the water," said the doctor,  
"and as a result typhoid fever and  
cholera are killing thousands. The  
doctors there receive only 20 to 40  
cents a visit, yet they do the best they  
can with the facilities at hand.

"Americans especially are subject to  
the prevailing disease across the wa-  
ter," continued the doctor, "on account  
of their carelessness in eating and  
drinking."

Doctor Lobdell's admiration for the  
average Frenchman was not increased  
by her visit to that country. She de-  
clares the men are far inferior to the  
women in general business and man-  
agement, being content to let the  
women do the work, while they fill  
the positions usually filled by sixteen-  
year-old girls in this country.

One thing that impressed the doctor  
forcibly in Europe was the remarkable  
cheapness of labor, and the fact that  
several persons are required, as a rule,  
to perform the same task that one  
person performs in the United States.

**A Word from Supt. Robison.**

We are receiving many requests from patrons of the South school as to why we are not having school at that building. We have had two serious difficulties in the way of heating the building. On Tuesday night the main which carries the water to the steam boiler at the building seems to have frozen up somewhere down the street below the building and we were unable to operate the plant without too much danger. We remedied this last night by hauling water and pouring in the boilers. Everything would have been all right today but the electric plant has been out of order and was unable to furnish current for the motor which runs the big fan which drives the hot air into the rooms. It is impossible to heat the rooms with the present arrangements without electricity. These are difficulties over which we have no control. We feel sure that we can open the school tomorrow.

T. W. ROBISON, Supt.

**Vaudeville at Pastime Theater.**

Last evening it was the pleasure of the News man to witness the vaudeville performance of Wolfe and Willis at the Pastime. The subject of their little comedy was the "County Sheriff." Old Si, the easy going old guardian of the peace, and his wife prepared to fool each other and slip off to the masquerade ball, but the surprise proved mutual. As usual old Si got the worst of it, for his wife, like most other modern wives had the old fellow under pretty fair control. They performed their parts well and the spectators had a laugh coming every minute of the play.

### Will Force Arbitration.

Spokane, Wash., Jan. 3.—Declaring strikes and lockouts to be illegal and providing compulsory arbitration for all disputes are the means set forth to solve the labor question in a bill prepared by state Senator George W. Shafer of Spokane, for introduction at the coming session of the legislature. The penalty for inciting a strike or a lockout is fixed at \$1,000.

The bill provides that any employee may be fined \$50 for every day he is on strike, while any employer causing a lockout becomes liable to a fine of \$10 a day for each employee thus deprived of work, this in no instance to be less than \$100 a day in the aggregate. The arbitration board is to be composed of five members, two each to be selected by employer and employee, the four chosen to appoint the fifth. Any member accepting a gratuity from either side is liable to a fine of \$1,000.

Seven classes of industrial disputes are named as coming within the jurisdiction of the arbitration board, as follows: Wages, hours and terms of employment, employment of children, favoritism, faulty material or damaged work, established customs and uses of various trades and interpretation of agreements.

Difference arising out of any of the foregoing causes is ground for applying to the commissioner of labor to appoint a board of arbitration, following which neither employer nor employee is permitted to make any change in the terms or conditions of employment until a final decision has been given by the board. In the event no decision is reached a new board may be summoned at once.

While the board is empowered to summons witnesses and take testimony, attorneys at law are barred from appearing except by agreement of both parties and all members of the arbitration body.

## WOMEN'S HAIR DESTROYED

Great Mavoc Wrought by Women's Carelessness.

Many women destroy the beauty of their hair through thoughtlessness or ignorance of certain facts. They do not shampoo their hair often enough, or too often. They use soaps or preparations which contain ingredients harmful to the scalp and hair.

As a result of such treatment dandruff is created, the hair loosens, loses color, falls out, and baldness commences, unless proper and prompt precautions are taken in time. Then again, microbes and certain diseases bring about unhealthy scalp and hair conditions.

Most people can rid themselves of dandruff and correct diseased scalp and hair conditions, if they will use the right remedy. We have that remedy, and we will positively guarantee that it will eradicate dandruff and

prevent baldness or it will not cost the user anything.

That's a pretty broad statement but we will back it and prove it with our own money. Rexall "93" Hair Tonic is the remedy that will grow hair and overcome scalp and hair troubles. It will grow hair even on bald heads, unless all life in the hair roots has been extinguished, the follicles closed, and the scalp is glazed and shiny. It gets its name from the fact that it grew hair in 93 out of 100 cases, where it received a thoroughly hard, impartial and practical test.

We want you to try Rexall "93" Hair Tonic at our risk. You surely cannot lose anything by doing so, while you have everything to gain. You would better think this over, and then come in and see us about this offer. You will be well repaid for your visit to our store. Two sizes, 50 cents and \$1.00. Remember you can obtain Rexall Remedies in Rochester only at our store—The Rexall Store. The Gwin & Mays Drug Co.

## NEW GUN POWERFUL

Weapon Could Wipe Out Whole Army in a Jiffy.

Machine Invented by Swiss Fires Million Bullets an Hour Without Use of Powder, So Press Agent Claims.

New York.—A gun that, its inventor says, can shoot 1,000,000 bullets an hour at a cost of \$20; that uses neither powder nor compressed air, and that fires bullets that do not require shells, was shot for the enlightenment of a delegation of New York reporters the other day. They saw the gun shoot, but they were not permitted to see that part of the gun out of which the little steel bullets came with such rapidity.

A Swiss named Bangarter was introduced as the inventor, and the press agent who staged the exhibition stated that Bangarter used to make watches.

The reporters asked nearly as many questions as the number of bullets this terrible weapon is said to be able to discharge, but there was no information coming as to what made the gun so lavish in the distribution of its little steel missiles. In order that the secret should be maintained that part of the mechanism that it is said causes the rapid shooting was covered with oilcloth. Only the motor that operates the gun and the little bucketlike receptacles into which the bullets are poured by the quart were visible to the reporters.

The exhibition was on the third floor of the building at 79 Broad street, Stapleton, S. I. In a little room adjoining that in which were placed the reporters was the gun. There were targets made of a series of big boards arranged in box fashion, each plank about a foot behind the one in front of it. There were four boards in each target.

At four p. m. the shooting began. The first of the targets were dragged into position. A moment later the motor started up. Then the bullets started to fly. They riddled the target into a pile of splinters a foot high, and they did it in less than a minute. All in all, it was estimated that no less than 15,000 bullets pierced the target. Not only the first of the big boards was riddled into a shapeless mass, but each of the other three as well. There was hardly enough left of the target to make a dozen decent sized safety matches.

The reporters were permitted then to enter the gunroom. They saw a motor, from the wheel of which a belt was operated. The belt connected the motor with another wheel, which was a part of the mechanism on the top of which was the oilcloth-covered weapon out of which the bullets came. They also saw the little buckets, on either side of the gun, into which the bullets are poured as they are needed. The reporters asked to see the gun in operation. Mr. Bangarter ordered another target swung into position. There was another whirl and a second storm of bullets struck the target. The fusillade lasted about ten seconds. Again was the target demolished.

But Mr. Bangarter and his associates refused to say anything about what was under the oilcloth in the little gunroom. They did give out a typewritten statement, however, saying that one of these guns "could face an army of thirty regiments of soldiers or 30,000 men, and could mow down that entire body of men as easy as a knife cuts the grass. There is no earthly possibility for any army to successfully face the fire from a gun of this kind, which pours a veritable hailstorm of bullets into the attacking forces, who must either sacrifice their lives or turn in retreat."

### To London by Airship.

Getting into their heavy padded jackets they stepped out, and leaning over the rail, looked downward. It was about seven o'clock, and the air was as clear as crystal. So far below that it looked like a half-tone picture spread on an open page was a city, vast in its extent, with its great buildings and spires showing above the average level and the river threading through.

Like the vapor of the breath on a frosty day, smoke was beginning to rise in lazy exhalations. And the eye could follow the frail thread of the river out through the misty distance to the waters of the sea.

"London," said the professor. "We'll give them a little entertainment, and they can't accuse us of lack of appreciation of the city, because we just took a look and went away. We'll stay quiet awhile, and give them something to talk about."—Top-Notch Magazine. Didn't Know Tennyson.

If any one asked him about persons he would tell delightful frank anecdotes concerning, maybe, the great men he knew and loved and measured exactly. He liked a spice of fun in everything, too, and his face beamed as he described a walk with Tennyson he had lately taken. They heard footsteps behind, and the great man frowned. "How they dog us, Hunt! How shall we escape them?"

"Just sit on the stile till they pass," said the matter of fact artist. They did so, and two lads in knickerbockers marched by swinging their sticks and not even turning their heads. Tennyson was chafed.

"Do you know, Hunt," he said, "I do not think they know who I am."

"Very likely, my dear Tennyson, and they would not even know if you told them."—Recollections of Holman Hunt in the Academy.

## NEW NEWS OF YESTERDAY

Story of a Little Boy Who Dearly Loved Flowers.

Charles C. Clarke's Delightful Reminiscences of the Childhood of David B. Hill, Former Governor of New York.

BY E. J. EDWARDS.

In May there died the last of the original group of men who were associated intimately with Commodore Vanderbilt in the building up of his great railroad system. This was Charles C. Clarke, who as auditor, treasurer and first vice-president of the commodore's railroad, was his employer's financial right-hand man for years. For more than half a century Mr. Clarke was a public character, first as a state employe and a banker, and from 1854 until his retirement, as a railroad man. In that period he came to meet most of the big men of his state, and his recollections of Millard Fillmore and Commodore Vanderbilt were particularly vivid. Yet what he called the most surprising experience in his long business life had nothing to do with either of these great men of yesterday.

"When I was assistant deputy treasurer of New York state at the time Millard Fillmore was comptroller," said Mr. Clarke, "I made the acquaintance of a number of men engaged in important business undertakings in western New York. One of these men was establishing a bank in the town of Havana; he asked me to take executive charge of it and I accepted his offer. That was in the year 1852."

Soon after I went to Havana it became necessary to make some important changes in the bank building and offices, and to do this work I employed a local carpenter, a very worthy man, who did honest work. One day he brought with him to the job a bright-eyed little fellow, who was, I should say, about nine years old. The youngster attracted my attention and I asked him if he went to school. He said he did, and then I asked him what he wanted to do when he became a man. He replied that he wanted to own a newspaper.

"The next day the little fellow again accompanied his father to work. He bore a bunch of violets in his hand which he diffidently held out to me, the while smiling quaintly. 'You want to put to put them in a pitcher with some water,' he cautioned."

"A day or two later the little fellow came again to the bank, this time bringing with him a bunch of daffodils. I took him between my knees, and after thanking him for his gift asked him if he was fond of flowers. 'Yes,' he answered, 'but I like the flowers that grow in the woods best and I know most of them.'"

"As the season passed from spring to summer the boy marked the progress of the year by bringing to my office the seasonable flowers; and one day, when hot weather was on in dead earnest, he came bearing very proudly a bunch of pond lilies which he said he had gathered especially for me."

"Thus I was showered with the blooms of the seasons until the carpenter moved away from Havana—at least, I lost sight of him and the boy. Two years later I entered railroad life and myself moved away from Havana."

"More than 30 years passed. Then one day I found myself in Albany for a call upon the governor of the state in connection with some important business for my railroad company. As I entered the executive offices a gentleman, with every evidence of real pleasure showing in his face, came up to me and extended his hand. 'Why, how do you do, Mr. Clarke?' he exclaimed, heartily. 'I am very glad to see you after all these years. But I see that you do not remember me.'"

"I do not recall, governor, that I have ever met you. Have I? I was forced to confess."

"The governor smiled. 'I'll try to aid your memory, Mr. Clarke,' he said. 'Don't you remember a carpenter named Hill who repaired your bank at Havana? Don't you remember his little boy, whom he used to call Davey, who sometimes brought you flowers?'"

"Are you that lad, Governor Hill?" I gasped, in astonishment. And then, as he smiled at my surprise, I added truthfully: "Every spring I have been reminded of that little boy by the sight of violets, daffodils and pansies. I have often wonder what had become of him. But not once did it ever occur to me that David B. Hill, governor of New York, was the little Davey who used to bring me flowers and left me one of the most charming recollections of my early manhood."

"Yes," said the governor when I had ceased, "I was the boy, Mr. Clarke. I have never forgotten your kindness and your sympathetic talks with me. And I have long hoped that the day would come when I could see you again and renew that boyhood acquaintance."

## ONE KILLED IN MINE EXPLOSION

Dust Is Supposed to Have Caused Tragedy Near McAlester—Damage Heavy.

McAlester, Okla., Jan. 3.—An explosion occurred Monday night in the Rock Island Coal Mining company's mine No. 38, at Alderson, from some unknown cause. There was only one man in the mine at the time, Robert Howe, 53, a shot firer, who was killed. His body was recovered Tuesday and it was found he died from suffocation, so the explosion is supposed to have resulted from dust. The man was not burned. The damage to the mine is heavy, as many timbers were blown out and fifty feet of slope closed in.

### Will Open Court at Wewoka.

Along with other officers Judge T. D. McKeown will take his office next Monday. He will go to Wewoka and open court Tuesday. He will have something to do this term, for there are nineteen murder cases on docket besides many others for lesser offenses. He will certainly be well broken in by the time he cleans up that docket.

### Ends Winter's Troubles.

To many, winter is a season of trouble. The frost bitten toes and fingers, chapped hands and lips, chilblains, cold sores, red and rough skins, prove this. But such troubles fly before Bucklen's Arnica Salve. A trial convinces. Greatest healer of burns, Boils, Piles, Cuts, Sores, Eczema and Sprains. Only 25c at Ramsey Drug Co.
